**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I am a current customer of Sonic internet in San Francisco. Sonic internet provides me 1000Mbps internet for less than 65\$ a month. The cheapest option from Comcast for my location would be 120Mbps for 100\$ a month. Sonic has had amazing customer service and had minimal interruptions. When we were customers of Comcast, we had issues daily and rarely received the advertised speeds we purchased.

The speeds of Sonic are better and the customer service of Sonic is better. Being someone who works from home, I could not contribute to my company without a local ISP like Sonic providing exceptional service.

Competition instills better consumer options. Please allow for competition to happen within the internet space and do not limit household connections to a few providers.
